

## Online Classes

These days, it is common for people to use online classes over the Internet. As a result, a huge amount of classes' data about what people are using is available to companies. Many companies analyze such data, and by doing so they try to develop new programs. The information companies gather will continue to help them make important business decisions in the future.

Your story should begin with this sentence: One morning, Mrs. Imai was talking to her son, Masaya, about buying an earphone for his cellphone.
