

Natural Disasters

It is often said that natural disasters around the world are changing. For example, there are more floods that damage the land. To make the better forecasts, people collect the data from all over the world. Now, experts analyze such data with computers, and in this way they can transfer the information rapidly. Rapid information will allow people to deal with the natural disasters.

Your story should begin with this sentence: One evening, Mr. Yamashita was talking to his son, Kenji, about the baseball game.
