

Learning about AI

These days, many people in Japan are interested in learning about AI. One reason is that AI is becoming more important in schools and companies. Now, some schools have started special classes where students use AI apps and translation tools. Students use such tools, and by doing so they can learn new ways to study.

Your story should begin with this sentence: One day, Mr. and Mrs. Tokuda were talking to his son, Ken.

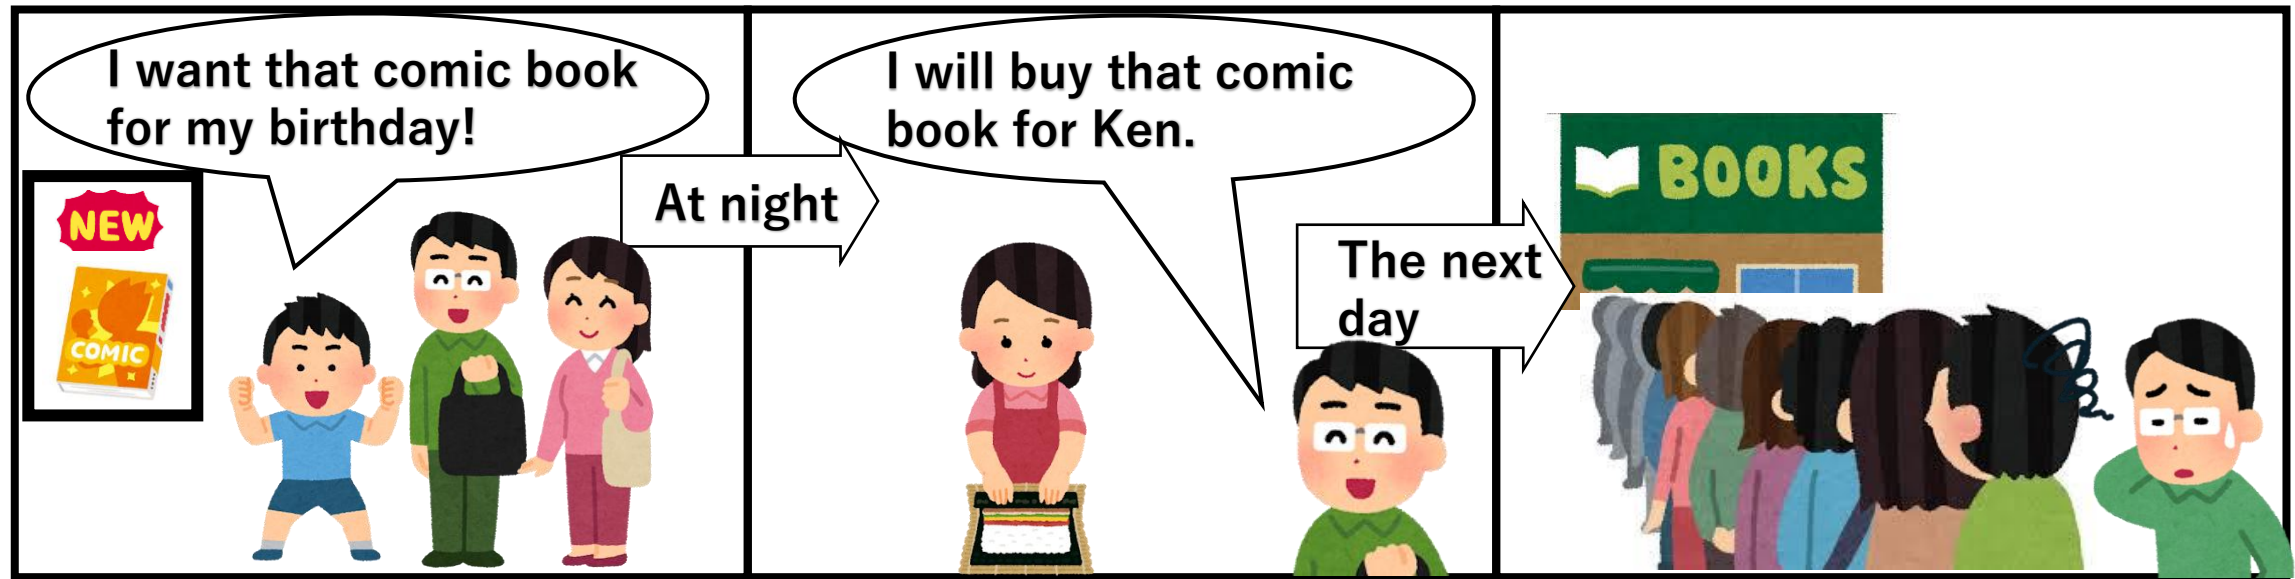

Learning about AI

These days, many people in Japan are interested in learning about AI. One reason is that AI is becoming more important in schools and companies. Now, some schools have started special classes where students use AI apps and translation tools. Students use such tools, and by doing so they can learn new ways to study.

Q1. How can students learn new ways to study?

A. By using AI apps and translation tools.

Your story should begin with this sentence: One day, Mr. and Mrs. Tokuda were talking to his son, Ken.

One day, Mr. and Mrs. Tokuda were talking to his son, Ken.

Ken said, "I want that comic book for my birthday!"

At night, Mrs. Tokuda was making dinner. Mr. Tokuda said that he would buy that comic book for Ken.

The next day, many people were standing in line in front of the bookstore. Mr. Tokuda was worried because he wasn't sure if he could buy the book.

No.3 Do you think people should read printed books instead of e-books?

Yes(Why?)

Printed books are easier to read for a long time.

Also, they don't need batteries.

No(Why not?)

E-books are lighter to carry.

Also, people can read them anywhere on their phones.

No.4

It is common for people to shop online on weekends. Do you often buy things on the internet?

Yes(Why?)

I order daily items and books online.

It saves time and sometimes money.

No(Why not?)

I like to see products in person.

I want to check the size and quality.
