Expensive Robots

Nowadays, robots are used in many industries to make work easier. It is said that new robots are very expensive, and this can cause problems for workers in small companies. High costs will prevent these workers from using robots effectively, so it is a major problem. Many people say more support is needed to spread advanced technology more widely.

Your story should begin with this sentence: ***<u>One day, Sayaka was at the office to welcome her guest, Peter, to her company.</u>***

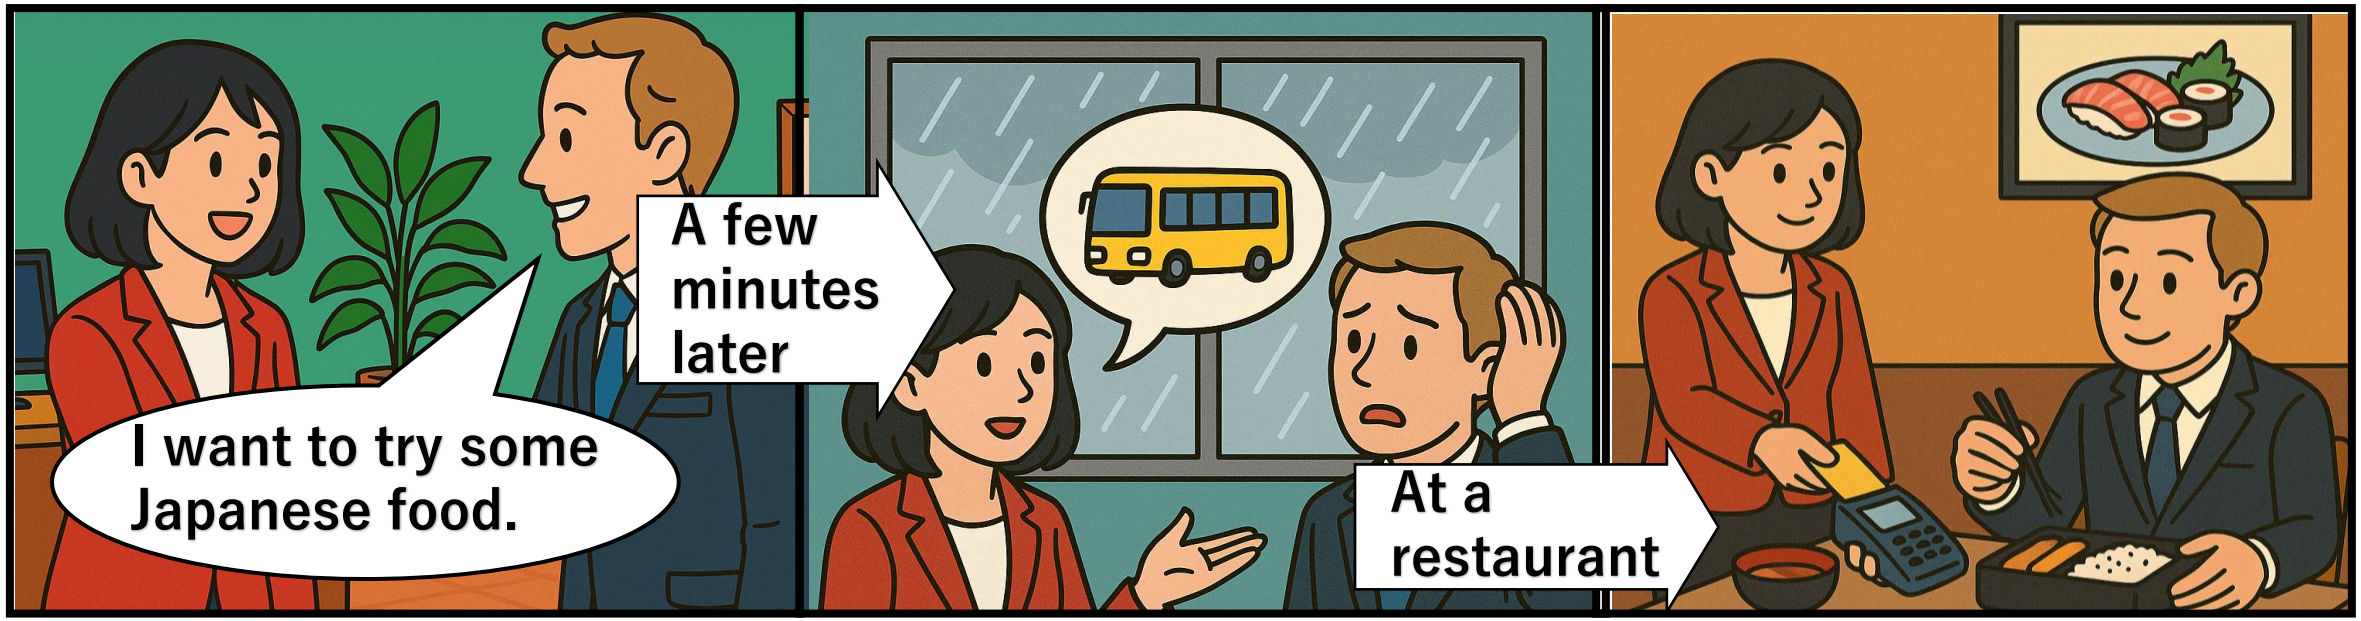

Expensive Robots

Nowadays, robots are used in many industries to make work easier. It is said that new robots are very expensive, and this can cause problems for workers in small companies. High costs will prevent these workers from using robots effectively, and as a result it is a major problem. Many people say more support is needed to spread advanced technology more widely.

Q1. Why are high robot costs a major problem?

A. Because they will prevent workers in small companies from using robots effectively.

Your story should begin with this sentence: One day, Sayaka was at the office to welcome her guest, Peter, to her company.

One day, Sayaka was at the office to welcome her guest, Peter, to her company.
Peter said to Sayaka, "I want to try some Japanese food."
A few minutes later, Peter was worried because it had started to rain. Sayaka suggested that they take a bus. At a restaurant, Sayaka was paying with a card machine. Peter was eating Japanese food.

No.3 Some people say that schools should teach students more about environmental problems. What do you think about that?

I agree.

If students learn about environmental problems, they will take action earlier. Also, this will help protect the earth in the future.

I disagree.

Schools already teach many subjects. For example, some schools have classes from early in the morning until 6 o’clock.

No.4
Nowadays, many people use fitness apps. Do you think such apps will be more popular in the future?

Yes(Why?)

Fitness apps are useful for people to check their exercise. Also, many people enjoy sharing their progress with friends online.

No(Why not?)

Many people still prefer going to gyms to stay healthy.

For example, they can get direct advice from trainers.
